About Our Tour

Since 1946, Unicorr Packaging Group has distinguished itself by its integrity and its manufacturing, design and service excellence, being among the largest converters of corrugated products and protective packaging in the Northeast. Unicorr is a multi-plant, family-owned and operated business. Practicing lean thinking to promote efficiency, sustainability and the elimination of waste along with a customer-partnership philosophy, has led to Unicorr's success and growth. Unicorr reaches across multiple facilities and warehouses with a full complement of capabilities and a wide product offering! For more information, please visit www.unicorr.com

Programs

June 13 Annual Scholarship Presentation/Awards at the Blue Goose

Certification

Certification prep courses run in the fall, winter, and spring. For details on certification, see www.asq.org/certification/ to confirm dates and register for the certification exams.

For further information, please contact Mike D'Onofrio at mikedonofrio301@yahoo.com, or 203-570-36

Standards Update

Just when you thought that the management standard group was complete we have a new addition, ISO 45001:2018. It specifies requirements for an occupational health and safety (OH&S) management system and gives guidance for its use. It is intended to enable organizations to provide safe and healthy workplaces by preventing work-related injury and ill health, as well as by proactively improving its OH&S performance.

Actually, the concept is not new. For many years we have had a BSI standard 18001:2007 covering the same subject. For those organizations compliant to this standard the normal three-year transition period applies.
