The prime rib, etc., awaits

Our Meeting Subject

It's a great time to give Mike a great send-off as the new Regional Director (Region 3) beginning in January. We are sure that Mike considerable experience will be an asset to the 10 ASQ Sections that comprise the region.

About Our Speaker

Mike D'Onofrio is a Quality Manager, Consultant, Engineer, and Auditor, CQM/OE, CQE, CQA; and a Six Sigma Black Belt with manufacturing quality experiences in metal finishing, fabrication, automotive, medical device, and other industries. He is the Quality Manager for Northeast Metal Works and previously worked for Casco Products and Precision Metal Products with TS16949 and ISO1385 and several consulting assignments for ISO9001, 14001, 17025, or AS9100.

A long-time member and member leader of Southern CT ASQ 301, having served as Chair, Treasurer, Secretary – achieved section Gold TQ awarded at Pittsburg WCQI. Current 301 Education Chair and Region 3 DRD and RD elect for 2018-2019. Former member of ASQ New Haven 305, ACS, AIChE, and SPE. Graduated from the University of Buffalo with a BS in Chemistry, an MS in Chemical Engineering, and UConn with an MBA. Earlier this year, taught Statistical Quality Control as an adjunct professor for the Technology Management Department of the University of Bridgeport

Chairman's Remarks

Thanks to all who supported our section during the year, especially our Leadership team. As we close out 2017, we want to honor one of our own.

Mike D'Onofrio has been a loyal member, leader, and friend to us and our section over the years and now has been elected the ASQ Region 3 Director. We know Mike will bring his integrity and vast experience and skills to the role and will serve our Region well.

Region 3 covers quite a large area, from the Hudson Valley, to Metro New York and New Jersey, Long Island, as well as Fairfield and New Haven Counties in Connecticut. We hope you can join us to wish Mike well.

On behalf of the Section Leadership team, I wish you all a wonderful and safe Holiday Season.

Ron DeRosa

Employment Opportunity

Training Manager – Electronics Company in Route 8 Corridor. Contact search coordinator, Joe Kulas at **Schegg** Group. 203-538-8804

PFMEA Workshop

Process Failure Modes and Effects Analysis (PFMEA) is a tool used to identify high risk areas within a given process and the controls required to mitigate those risks. Pete Teti, Product & Process Validation Fellow for Pratt & Whitney, helped develop a method to properly evaluate the quality of PFMEAs conducted. He will lead this workshop covering what it takes to assure the PFMEAs conducted in one’s facility are most effective. He will go over the red flags to look out for that may

indicate improvement opportunities as well as how to evaluate the key PFMEA Plan. This workshop will include several interactive exercises to best bring forth the

About Pete (Presenter):

Pete Teti is in his 33rd year at United Technologies Corporation, working at Pratt & Whitney as the Product & Process Validation Fellow. Pete is responsible for proficiency & skills development, aiding in the implementation of the UTC Production Part Approval Process, supporting the ramp-up efforts on the NGPF and F135 programs, and providing quality expertise across the PW plant sites and supply chain. Overall, Pete's main contributions have centered on leading the development of quality systems, statistical process control implementation, and Supplier Quality & Development. Prior to coming to Pratt, Pete spent 27 years at Hamilton Sundstrand serving as a Quality Engineering Fellow, Supplier Quality & Development Manager, and Compliance Manager.

As a Fellow for Quality Engineering, Pete was instrumental in the development and implementation of several critical UTC quality processes such as Quality Clinic Systems, Process Certification, Supplier Gold, PPAP, and Manufacturing Process Review assessments.

Pete holds ASQ certifications as a Quality Engineer, Quality Auditor and Quality Manager. Pete has been a member of ASQ since 1992, is a Senior Member, Pete was past Chairman of the ASQ Dorian Shainin Medal Award and also a committee member for 4 additional year. He teaches the Certified Quality Engineer Refresher program for the Hartford, CT Chapter 103. Pete also achieved blackbelt certification from Launsby Consulting in Design for Six Sigma.

Pete has also served as an Adjunct Professor at Central Connecticut State University for approximately 20 years teaching courses in Six Sigma and Advanced Six Sigma Quality.

Pete has a bachelor's degree in Industrial Engineering/Operations Research from the University of Massachusetts-Amherst and a Masters in Operations Management from Rennsalear Polytechnic Institute. Outside of work, Pete enjoys coaching basketball and gardening. Pete, his wife Jennifer, and their 4 children, reside in Torrington, CT.
